ALBANY — Pioneer Bancorp Inc., a leading financial institution in New York's Capital Region, kicked off its first-ever "All Together Forward Week," an unprecedented community service initiative that will engage more than 200 employees in supporting the needs of local children, families, organizations, and communities.

Expanding from a one-day effort to a week-long undertaking, All Together Forward Week will see Pioneer employees spend 500 volunteer hours to assist 13 nonprofit organizations across the Capital Region. With projects that range from painting, landscaping and general maintenance to reading and craft-making with children, this employee-led endeavor is designed to embody Pioneer's brand, All Together Forward™, and its promise to "inspire progress one individual, one family, one business, and one community at a time."
